CERTIFICATIONS

Introduction to Data Analysis

- Cisco Networking Academy
- Gained foundational skills in collecting, cleaning, and interpreting data using basic analytical methods and visualization techniques.

Data Analytics Essentials

- Cisco Networking Academy
- Developed practical skills in data analysis, including SQL queries, data modeling, visualization, and solving real-world analytical problems.

CSS Front-End Web Development

- Great Learning Academy
- Gained practical experience in styling and designing responsive, user-friendly web interfaces using CSS.

PROJECTS

Front-End Project - Shield Okumbawa Sacco

- Developed an informational Sacco website featuring user login and registration functionality. Built using React.js (JSX) and Vite, focusing on responsive UI, smooth navigation, and secure user authentication workflows. The project improved accessibility to Sacco services and enhanced member engagement through a modern web interface.

Front-End Project - EcomVista

- Future enhancements include shopping cart and checkout functionalities.
- Tech Stack: HTML, CSS, JavaScript, Bootstrap, PHP, MySQL
- GitHub-Link:<https://github.com/Alana303/Ecom-VistaRegime.git>

Full Stack Project - TrackWise-Expense Tracker Website

- Features include personalized user dashboards, visual expense breakdowns, and intuitive expense categorization.
- GitHub-Link:<https://github.com/Alana303/Expense-Tracking-Website.git>

SOFT SKILLS

- Critical problem-solving & logical reasoning
- Excellent communication & technical writing
- Adaptability to new tools and frameworks
- Time management and self-direction
- Teamwork and cross-functional collaboration
- Strong research and self-learning skills
